

Special bags for your special needs

We offer a versatile range of stylish carrier bags for speciality retailing. Our elegant yet durable loop handle and cut-out carrier bags are powerful brand ambassadors for your store. And our multi-purpose blocked bags provide an ideal alternative for packing smaller purchases.

Creating Convenience

Durable and stylish bags for specialised shopping needs

Trendy choice for speciality stores

Our stylish loop handle carrier bags are excellent for speciality retailers, particularly clothing shops and boutiques. They offer large, uninterrupted printing surface that can extend from edge to edge and the possibility to print your designs in up to eight colours. Their unique feature is the attractive and strong handle made of transparent or white polyethylene film.

Single format for all your carrier bag needs

We also offer cut-out carrier bags in a wide selection of sizes, with or without a bottom gusset, and with two different carrying handles. This enables you to adopt a single-format approach for all your carrier bag needs. All our cut-out carrier bags are made of evenly thick film.

Ideal solution for smaller purchases

Our multi-purpose blocked bags are small, versatile bags, attached to each other. They are perfect for small purchases, such as cosmetics, pharmaceuticals, CDs, and small items of clothing. Thanks to their perforation, consumers can easily tear off one or more bags. Eight-colour printing is available with this product line as well.

Environmentally friendly and reliable

We have steadily reduced the thickness of our bags to save on materials, while still offering high standards of performance. After use, the material can be recycled as plastic, or the energy in the plastic utilised through burning. All our retail carrier bags have the Key Flag symbol, which conveys a reliable message of Finnish origin, as well as of safety and high quality.

Loop handle carrier bags

- Materials: coex PE • Film thickness: 40–60 µm
- Standard sizes can be tailored according to your needs
