All figures in this interim report refer to continuing operations of the Group unless otherwise stated. The figures are compared with those of the corresponding period in 2012, unless otherwise stated. In accordance with IFRS 5, the comparison data of the balance sheets have not been revised and, consequently, include both non-allocated items and discontinued operations.

Highlights in April - June 2013:

- Net sales from the continuing operations grew by 5% and amounted to EUR 107.7 million (102.4)
- Operating profit excluding non-recurring items from the continuing operations increased by 103% to EUR 4.3 million (2.1)
- Suominen agreed to divest its Codi Wipes business unit to Value Enhancement Partners investment company. The deal was closed on 15 July 2013. In this interim report, Codi Wipes is reported in discontinued operations.
- Suominen revises its previous estimate, announced on 17 June 2013, on the net sales development. The company expects its net sales of the continuing operations for the full year 2013 to remain at or slightly exceed the level of 2012. Previously, Suominen estimated that its net sales of the continuing operations for the full year 2013 would remain at the level of 2012. Operating profit excluding non-recurring items is expected to improve from year 2012.

Nina Kopola, President and CEO, commenting on Suominen's second quarter:

"In the European markets, consumers' confidence in their personal financial situation continued to improve slightly according to the euro-area consumer confidence index. North America, Suominen's other main market, saw a more marked rise in the consumer confidence index. However, the development prospects of the general economic situation are still uncertain, especially in Europe.

Suominen's business operations continued to develop positively in the second quarter. Net sales from the Group's continuing operations increased to EUR 107.7 million and operating profit, excluding non-

recurring items, more than doubled to EUR 4.3 million.

We decided to divest our wet wipes business unit, Codi Wipes, to Value Enhancement Partners investment company. The deal clarifies our position as a leading manufacturer of nonwovens in the wipes value chain, and we can now concentrate even more intensively on further strengthening this position as part of our 'In the Lead' strategy. The transaction was closed in July after the end of the reporting period.

We also continued to implement our strategy steadfastly through several other measures, which will increase the share of products with higher added value in our portfolio. In April, we launched two new nonwoven products for higher value-added industrial and household wiping applications. In June, we decided to invest approximately EUR 2.5 million in capacity expansion at the Windsor Locks plant in the USA. The production line that will be renewed is focused on manufacturing Hydraspun® Dispersible nonwovens. The product is flushable as defined in the guidelines issued by the industry associations, European Disposables and Nonwovens Association (EDANA) and The Association of the Nonwoven Fabrics Industry (INDA). With this investment, we will be even better able to respond to the increasing demand for these technically advanced nonwoven materials.

During the reporting period, progress was also made in the strategic development programs launched in our Nonwovens business in the first quarter. The goals of these programs are to harmonize and enhance processes in our supply chain and to improve product development further, which will enable us to accelerate our customers' operations and increase the share of products with higher added value in our portfolio, in keeping with our strategy.

Net sales from the Wiping segment's continuing operations grew to EUR 93.1 million (89.4). The segment's operating profit, excluding non-recurring items, improved from EUR 3.6 million in the corresponding period to EUR 5.8 million in the reporting period. The operating margin continued to increase and was 6.2%.

In the Flexibles segment, the implementation of the extensive business turnaround program initiated at the turn of the year continued. Despite a tight competitive situation, the segment's net sales grew by 14% to EUR 14.6 million. The segment's operating profit, excluding non-recurring items, improved on the corresponding period, but was still negative."

GROUP NET SALES AND FINANCIAL RESULT (CONTINUING OPERATIONS)

DIVESTMENT OF CODI WIPES BUSINESS UNIT AND REPORTING IN DISCONTINUED OPERATIONS

In June 2013, Suominen agreed to sell its Codi Wipes business unit, focused on wet wipes manufacturing, to Value Enhancement Partners investment company. Establishment of permanent committees

Suominen Corporation's Board of Directors decided on April to establish audit and remuneration committees for the Board.

The main tasks of the Audit Committee relate to ensuring the company's good governance, accounting and financial reporting, internal control systems and monitoring of third-party auditing. The Audit Committee will prepare for the Board matters that fall under its areas of responsibilities, but it does not have independent decision-making powers unless the Board resolves otherwise on certain matters. Suominen Corporation's Board of Directors elected Hannu Kasurinen as Chairman and Suvi Hintsanen and Heikki Mairinoja as members of the Audit Committee from among the Board's members. In future, the Chairman and members of the committee will be elected annually at the Board's constitutive meeting. At least three members will be elected to the committee. The rewards to be paid on the basis of the plan correspond to the value of an approximate maximum total of 5,050,000 Suominen Corporation shares, including also the cash-settled part. The aim of the plan is to combine the objectives of the shareholders and key employees in order to increase the value of the company, to commit the key employees to the company, and to offer them a competitive reward plan based on long-term shareholding in the company. The plan includes one performance period, the calendar years 2012–2014. The potential reward from the performance period will be based on Suominen Group's cumulative Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA) and cumulative cash flow, and it will be paid in 2015 partly in the company's shares and partly in cash.

Authorizations of the Board of Directors

The Annual General Meeting authorized the Board of Directors to repurchase a maximum of 3,000,000 of the company's own shares. The authorization shall be valid until 30 June 2014. A maximum of 50,000,000 new shares may be issued. The maximum number of new shares that may be subscribed and own shares held by the company that may be conveyed by virtue of the special rights granted by the company is 10,000,000 shares in total which number is included in the maximum number stated earlier (50,000,000). The authorization shall be valid until 30 June 2016.

BUSINESS RISKS AND UNCERTAINTIES

Suominen and Ahlstrom continue to negotiate the prerequisites and alternatives for completing the transaction of the Brazilian unit of Ahlstrom's Home and Personal business. The conditions for achieving a solution are that a common agreement be reached on the acquisition and that financiers approve of the acquisition and its financing. However, the delay or cancellation of the acquisition of the Brazilian unit would not cause financial losses for Suominen.

The estimate on the development of Suominen's net sales is in part based on forecasts and delivery plans received from customers. Changes in these forecasts and plans resulting from changes in the market conditions or in customers' inventory levels may affect Suominen's net sales. Due to the continued uncertainty in the general economic situation and the cautious consumer purchasing habits, the forecasts include uncertainty.

Suominen's customer base is fairly concentrated, which adds to the customer-specific risk. Long-term contracts are preferred in the case of the largest customers. In practice the customer relationships are long-term and last for several years.

The continued positive development of Suominen's business operations in the United States increases the relevance of the exchange rate risk related to USD in the Group's total exchange risk position. Suominen hedges this foreign exchange position in accordance with its hedging policy.

Suominen purchases significant amounts of oil and pulp-based raw materials annually. Raw materials are

the largest cost item for operations. Rapid changes in the global market prices of raw materials affect the company's profitability. Extended interruptions in the supply of Suominen's main raw materials could disrupt production and have a negative impact on the Group's overall business operations. As Suominen sources its raw materials from a number of major international suppliers, significant interruptions are unlikely.

Suominen has numerous regional, national and international competitors in its different product groups. There is currently oversupply in several product groups, particularly in Europe. If Suominen is not able to compete through an attractive product offering, it may lose some of its market share, and the competition may lead to increased pricing pressure on the company's products.

The Group's damage risks are insured in order to guarantee the continuity of operations. Suominen has valid damage and business interruption insurance according to which it is estimated that the damages can be covered and the financial losses caused by an interruption compensated.

Suominen's credit arrangements include covenants that the company must meet. At the end of 2013, Suominen's net debt to EBITDA ratio may not exceed 3.6 and the company's gearing ratio must be less than 125%. In this interim report, these key figures are 2.7 and 121.4%.

The sensitivity of Suominen's goodwill to changes in business conditions is described in the notes to the financial statements 2012. Actual cash flows may deviate from the forecasted future discounted cash flows, as the long economic lifetime of the company's non-current assets, and changes in the estimated product prices, production costs, and interest rates used in discounting may result in write-downs. The fair value based on the value in use of assets or businesses in total or in part does not necessarily correspond to the price that a third party would pay for them.

General risks related to business operations are described in the Report of the Board of Directors 2012.

BUSINESS ENVIRONMENT

Suominen's products are used in daily consumer goods, such as wet wipes and plastic packaging. The general economic situation determines the development of consumer demand, even though the demand for consumer goods is not very cyclical in nature. Europe and North America are the main market regions for Suominen.

In the European markets, the consumer confidence index continued to improve slightly in the euro area. North America, Suominen's other main market, saw a more marked rise in the consumer confidence index. However, the development prospects of the general economic situation are still uncertain, especially in Europe.

Suominen assesses the trend in demand for its products on the basis of both the general market situation and, above all, on the basis of the framework agreements drawn up with its clients. Suominen estimates that in 2013, demand for its products will remain at the level of 2012.

Suominen will continue to implement its strategy and executes within this framework two separate business development programs. The goals of these programs are to harmonize the supply chain processes and to further improve product development, which will enable Suominen to accelerate its customers' operations and increase the share of products with higher added value in its portfolio, in keeping with its strategy.

EVENTS AFTER THE REVIEW PERIOD

Suominen Corporation completed the divestment of the Codi Wipes business unit on 15 July 2013. Due to the divestment, Suominen recognized, in accordance with the IFRS 5 standard, a non-recurring loss of MEUR 16.8 in the second quarter result of its discontinued operations.

The Board of Directors of Suominen Corporation has, based on the authorization granted by the Annual General Meeting of Shareholders, resolved on the issuance of 2,000,000 new shares to the company itself without consideration in accordance with chapter 9 section 20 of the Companies Act. The new shares are estimated to be registered in the trade register on 15 August 2013, after which the company will without delay apply for the admission of the shares to public trading on the stock exchange list of NASDAQ OMX Helsinki Ltd. The purpose of the issue of shares to the company itself is to have own

shares held by the company available for the payment of the portion of the annual remuneration of the Members of the Board of Directors, which shall be paid in shares of the company, and for the payment of the share rewards possibly payable based on the company's share based incentive plan. The share rewards possibly payable based on the company's current share based incentive plan for the years 2012 – 2014 will be paid in the year 2015.

OUTLOOK FOR 2013

Suominen estimates that its net sales for the full year 2013 from continuing operations will remain at or slightly exceed the level of 2012. Operating profit excluding non-recurring items is expected to improve from year 2012. In 2012, Suominen's net sales from continuing operations were EUR 410.4 million. Group operating profit excluding non-recurring items, as reported in the Financial Statements of 2012, was EUR 13.7 million

SUOMINEN GROUP CONSOLIDATED 1 JANUARY – 30 JUNE 2013

This interim report has been prepared in compliance with IAS 34 Interim Financial Reporting. The principles for preparing the interim report are the same as those used for preparing the financial statements for 2012, and this interim report should be read parallel to the financial statements for 2012. Changes to published accounting standards and interpretations, together with the new accounting standards that came into force on 1 January 2013, are presented in the financial statements for 2012.

All calculations in this interim report have been prepared in compliance with the revised IAS 1 standard, 'Presentation of Financial Statements'. This standard is aimed at improving users' ability to analyze and compare the information given in financial statements by separating changes in equity of an entity arising from transactions with owners from other changes in equity. Non-owner changes in equity will be presented in the statement of comprehensive income.

According to the revised IAS 19 standard 'Employee Benefits', which came into force on January 1, 2013, the corridor method is not applied to actuarial gains and losses, and changes in actuarial gains and losses are recognized in other comprehensive income. Net interest expenses are determined by multiplying the net debt (or receivables) with the interest rate used in discounting, and the difference between the real return on assets and the return calculated using the interest rate used in discounting is recognized in other comprehensive income. Previously unrecognized actuarial gains and losses are also recognized in other comprehensive income. The same applies to other long-term employee benefits, although changes in recognized items are recorded through profit or loss. The process concerning termination benefits, particularly the date when the entity recognizes its liability for termination benefits, is also defined in more detail.

The IAS 19 standard is not expected to have a material impact on Suominen's financial statements or operating result. The standard does, however, require retroactive application for the financial statement figures of comparison years. Thus, the net debt of the Group's defined benefit pensions and the statement of comprehensive income from the 2012 comparison year has, as a result of the elimination of the corridor approach to recognize actuarial gains and losses, been changed to reflect the retroactive application. As a result of the revision to IAS 19, the Group's pension liabilities increased from EUR 845 thousand to EUR 1,092 thousand as of the December 31, 2012 financial statements, and actuarial losses of EUR 247 thousand for the comparison period have been recognized in the other comprehensive income statement items of the 2012 comparison data.

The figures in this interim report have not been audited.
